MMS is a full valve house, offering Max-Air's high-quality on/off and butterfly valves that meet/exceed the leading manufacturer in million stroke tests, with millions of dollars of inventory on the shelf and ready to ship.

All valves priced below are for on/off valves with actuators including:

<b>VALVE</b>	Carbon steel valve, 316 SS ball and stem, 50/50 seat (commonly works well even in saturated steam, high temperatures, abrasives), class 150 flanged connection
<b>MOUNTING BRACKET</b>	Included
<b>ACTUATOR</b>	Spring-return fail-close actuation, 60 psi pneumatic control, 50% safety factor actuator providing sufficient power for oils and wet service. Standard temperature applications (-4 °F (-20 °C) to 176 °F (80 °C))

Other options are available including electric actuators, modulating control with positioners, explosion-proof for area classification needs.
